Subject: request for monitoring reports-Louisville District

Hi Mike,

We are getting an intern this summer and we would like the intern to go through monitoring reports to determine what is working and what is not as far as on the ground implementation of mitigation and monitoring requirements that have been placed on DA permits for projects we have provided comments on. This will help us to improve our comments on mitigation and monitoring based on information gleaned from the monitoring reports and lessons learned. Please send us copies of the monitoring reports submitted for each of these projects at your earliest convenience:

*Peabody Energy, Bear Run East Pit (LRL-2006-1614)- permit issued 10/3/07

*Peabody Energy, Farmersburg Mine (200600454)-permit issued 11/4/08

*Peabody Energy, Wild Boar (LRL-2008-228)-permit issued 12/31/09

*Log Creek Expansion, Triad Mining (LRL-2009-1048)-permit issued 9/7/10

Please call Wendy Melgin at 312-886-7745 or me if you have any questions.

Thank you!

Melissa Blankenship
